Dedicated to 25 th anniversary of Lithuanian Society of Coloproctologists

INTERNATIONAL COLORECTAL RESEARCH SUMMIT VILNIUS

This year we are celebrating the 25th anniversary of the Lithuanian Society of Coloproctologists. It has been established in 1991 under the patronage of our honorary president prof. Vytautas Zykas – one of the most outstanding colorectal figures from our country in the XX century – supported by a number of other enthusiastic colorectal surgeons. A great river of life flows between today and a date so distant. Over a quarter of a century our society became the most active and productive professional society in the sphere of medicine in Lithuania. Numberless national and international meetings, most outstanding speakers from all over the world, consensus meeting and our lasting devotion to colorectal surgery, true friendship and sincere collaboration has made this society so great. So let other 25 years be even more dynamic, picturesque and rewarding to all of us and our beloved one, hoping that almighty God will allow us to provide the most excellent and updated care to all of our patients.

Prof. Narimantas Evaldas Samalavicius
President of the Lithuanian Society of Coloproctologists

P R O G R A M M E

9.15-9.30 **Opening speech: Prof. Narimantas Evaldas Samalavicius (President, Lithuanian Society of Coloproctologists), Phil Caushaj (President-elect, The International Society of University Colon and Rectal Surgeons)**
