

9th European Regional Conference on Thoracic Oncology: New challenges in diagnosis and treatment

16-17 June 2017

Hotel „Holiday Inn Vilnius“ Vilnius, Lithuania

Conference Program

Friday, June 16, 2017

7:00 – 8:30 Young investigators Session

Chairs: **M. Moniuszko, S. Cicenas**

07:00-07:10	Clinical potential of miRNAs and their targets in NSCLC	Julija Fadejeva Vilnius, Lithuania
07:10-07:20	Molecular profiling of lung cancer	Magdalena Niemira Bialystok, Poland
07:20-07:30	Tumor infiltrating immune cells as biomarkers in NSCLC	Jaroslavas Bublevic Vilnius, Lithuania
07:30-07:40	Deciphering non-small cell lung cancer by omics approach	Michal Ciborowski Bialystok, Poland
07:40-07:50	Intra-tumor genetic heterogeneity of lung adenocarcinoma as investigated by next generation sequencing	Mindaugas Morkunas Vilnius, Lithuania
07:50-08:00	The role of miR-145 in regulation of immune response in lung cancer	Andrzej Eljaszewicz Bialystok, Poland
08:00-08:10	Three-dimensional spheroid cell culture as avascular tumor model for cancer research	Greta Jarockyte Vilnius, Lithuania
08:10-08:30	New Horizon 2020 based PhD studies	Marcin Moniuszko Bialystok, Poland

08:00-9:00 Registration

Welcome address

Moderation: **S. Cicenas, J. Niklinski, Ch. Manegold**

1. Lithuanian Minister of Health
2. Dean of the Faculty of Medicine, VU

Music introduction

9:30-10:30	Recent Advances in first line advanced squamous NSCLC treatment (Lilly session) Chairs: J. Niklinski	Nicholas Thatcher Manchester, United Kingdom
10:30-11:00	New Biobanking and Omics Session Chairs: Ch. Manegold, S. Cicenas, J. Niklinski	
10:30-10:40	Introduction to MOBIT Project	Jacek Niklinski Bialystok, Poland
10:40-10:50	A novel approach to the Oncology Biobank and Omics analysis in the University setting	Anna Michalska-Falkowska Bialystok, Poland
10:50-11:00	Clinical value of PET/MRI in the management of lung cancer	Dorota Jurgilewicz Bialystok, Poland
11:00-11:15	Coffee break	
11:15-12:00	Lung Cancer: New Imaging /Pathology/Molecular biology Chairs: S. Jarmalaite, M. Papotti	
11:15-11:30	New Imaging	Wieland Voigt Erlangen, Germany
11:30-11:45	Pathology	Mauro G Papotti Torino, Italy
11:45-12:00	New trends in Lung Cancer Pathology	Justinas Besuparis Vilnius, Lithuania
12:00-13:00	Gefitinib – A successful story and a value for the future (AstraZeneca session) Chairs: E. Danila	Antonio M Araujo Porto, Portugal
13:00-14:00	Lunch	
14:00-14:30	Surgery for lung cancer Chairs: S. Cicenas, R. Mroz	

14:00-14:15	Broncho-vascular sleeve resections in patients with malignant pulmonary neoplasms: indications and results	Oleg Pikin Moscow, Russia
14:15-14:30	VATS in thoracic oncology	Mirosław Kozłowski Białystok, Poland
14:30-14:50	Radiotherapy in lung cancer Chairs: R. Steponavičienė, A. Wrona	
14:30-14:40	Stereotactic radiotherapy in the treatment of lung cancer - challenges and new perspectives	Anna Wrona Gdansk, Poland
14:40-14:50	Radiation and Immunotherapy: How to combine?	Françoise Mornex Lyon, France
14:50-15:10	Immunotherapy of lung cancer Chairs: R. Pirker, S. Baka	
14:50-15:00	Immunotherapy for NSCLC – First Line Treatment	Sofia Baka Thessaloniki, Greece
15:00-15:10	Immunotherapy of advanced non-small cell lung cancer: the potential of combinations	Robert Pirker Vienna, Austria
15:10-15:40	Coffee break	
15:40-16:40	Treatment of advanced lung adenocarcinomas (Lilly session) Chairs: S. Cicėnas	Jussi Koivunen Oulo, Finland
16:40-17:10	Modern treatment of early and advanced lung cancer, new classification Chairs: Ch. Manegold, E. Danila	
16:40-16:55	Early cancer treatment	Saulius Cicenās Vilnius, Lithuania
16:55-17:10	Advanced cancer treatment	Christian Manegold Mannheim, Germany
17:10-18:10	EGFR mutation positive lung cancer in Estonia: from testing to treatment (Boehringer-Ingelheim session) Chair: S. Cicenās	Jana Jaal Tartu, Estonia
18:10-18:40	Tobacco control and Biostatistics Chairs: R. Everatt, L. Pilz	

18:10-18:25	Smoking cessation practise among family doctors	Ruta Everatt Vilnius, Lithuania
18:25-18:40	Stratification strategies for clinical lung trials	Lothar R Pils Mannheim, Germany
19:00	Dinner	

Saturday, June 17, 2017

09:00-10:30	Selected case reports Chairs: S. Cicenas, M. Burmistrov, V. Zharkov	
09:00-09:15	Long-term survival of patient after "salvage" surgery for oligometastatic NSCLC	Oleg Pikin Moscow, Russia
09:15-09:30	Individualised treatment of oligometastatic disease	Laura Norkiene NVI, Vilnius, Lithuania
09:30-09:45	Replacement of trachea with tissue engineering prosthesis	Demidchik Yuriy, Vladimir Zharkov Minsk, Belarus
09:45-10:00	Larynx-preserving Cervical Esophagectomy in Locally Advanced Esophageal Cancer	Andrey Rudyk , Mikhail Burmistrov Kazan, Russia
10:00-10:30	Discussion	
10:30-11:00	Coffee break	
11:00-11:15	Severe acquired thrombophilia associated with ROS1 positive lung adenocarcinoma	Viktors Kozirovskis Riga, Latvia
11:15-11:30	Successful combined treatment of malignant pleural and peritoneum mesothelioma	Rugile Cesaite, Alvydas Cesas Klaipeda, Lithuania
11:30-11:45	ALK-positive NSCLC	Rossitza Krasteva Panagyurishte, Bulgaria
11:45-12:00	Long-term complex treatment of multiple metastatic adenocarcinoma of the lung	Andrey Akopov Saint Petersburg, Russia
12:00-12:15	Discussion	

12:15-12:30	Advances in Medical Sciences - MUB magazine	Lukasz Miranowski Bialystok, Poland
12:30	Closing remarks Moderation: S. Cicenas, J. Niklinski, Ch. Manegold
