

EBU training
„Diagnosis and treatment of local and advanced (oligometastatic and metastatic) prostate cancer“

PROGRAMME

1st day - Diagnostics and treatment of localized prostate cancer, 13th May 2019

Time	Topic	Speakers	Venue
08:30-09:30	Registration of participants.		Room 621, Central building
09:30-10:15	External beam radiotherapy for prostate cancer treatment	<i>M. Grybauskas, oncologist Dr. A.Burneckis, radiotherapist</i>	Conference hall, room 113 MTC building
10:15-11:00	Indications for stereotactic radiotherapy.	<i>K.Slidevska, radiotherapist</i>	Conference hall, room 113 MTC building
11:00-12:00	Ultrasound diagnostics and indications for biopsy of prostate cancer. Biopsy technique	<i>Dr. A.Vėželis, urologist A.Matulevičius, urologist</i>	Conference hall, room 113 MTC building
12:00-13:30	MDT discussion.	<i>Dr. J.Ušinskienė, radiologist Dr. V.Urbonas, medical oncologist Dr. A.Burneckis, radiotherapist A.Patašius, urologist D.Dasevičius, pathologist K.Slidevska, radiotherapist Dr. M.Trakymas, radiologist V.Raševskis, urologist</i>	Conference hall, room 113 MTC building
13:30-13:45	Intermission		
13:45-14:30	The results of Prostate cancer early diagnostic programme at NCI and Lithuania.	<i>A.Patašius, urologist</i>	Conference hall, room 113 MTC building
14:30-15:15	Diagnostic power of mpMRI (PIRADS).	<i>Dr. R.Briedienė, radiologist</i>	Conference hall, room 113 MTC building
15:15-16:00	Possibilities of Prostate Cancer diagnostic by MpMRI (PIRADS). Whole body MRI. Introduction of diagnostic equipment and presentation of clinical cases.	<i>Dr. J.Ušinskienė, radiologist Dr. R.Grigenė, radiologist</i>	Conference hall, room 113 MTC building
12:30-14:30	Presentation of clinical cases (operating). Transrectal prostate biopsy. Prostate HistoScanning. Transperineal prostate biopsy performance	<i>Dr. A.Vėželis, urologist A.Matulevičius, urologist</i>	6th floor operating room

2nd day - Treatment of localized prostate cancer, 14th May 2019

Time	Topic	Speakers	Venue
08:00- 08:50	EBU-EAU Certified Host Centre for Prostate cancer. Prostate cancer research at NCI.	Prof. S.Jarmalaitė, Deputy Director for Research and Development of NCI, acting Director A.Patašius, urologist Ž. Kardelis, urologist P.Bosas, urologist	Conference hall, room 113 MTC building
08:50-09:05	Prostate surgery. Open and laparoscopic surgery. Presentation of a clinical cases.	A.Matulevičius, urologist	Conference hall, room 113 MTC building (6 th floor operating room)
09:05- 09:50	Morphological diagnostics of prostate cancer.	D.Dasevičius, pathologist	Conference hall, room 113 MTC building
09:50-10:35	Discussion. Diagnostic tools for prostate cancer visualization: US, MRI, MRI-US fusion, PET.	Dr. R.Briedienė, radiologist Dr. M.Trakymas, radiologist	Conference hall, room 113 MTC building
10:35-11:20	MRI guided prostate biopsy.	Dr. M.Trakymas, radiologist	Conference hall, room 113 MTC building
11:20-13:30	Prostate biopsy with MRI navigation. Presentation of a clinical case and demonstration in the operating room. Video stream.	Dr. M.Trakymas, radiologist Dr. A.Vėželis, urologist	Conference hall, room 113 MTC building (6 th floor operating room)
12:00-13:00	MDT discussion. MRI-US fusion.	Dr. V.Urbonas, medical oncologist I.Naruševičiūtė, radiologist Dr. R. Briedienė, radiologist Dr. A.Burneckis, radiotherapist D.Dasevičius, pathologist A.Patašius, urologist Dr. M.Trakymas, radiologist Ž. Gudžinskas, urologist A. Kulboka, urologist	Conference hall, room 113 MTC building
13:00-13:15	Surgical treatment of prostate cancer: open surgery versus laparoscopic. Selection and Selection and results.	P.Bosas, urologist P.Baum, urologist (The North Estonia Medical Centre, Estonia)	Conference hall, room 113 MTC building
13:15-13:30	Intermission		
13:30-14:15	Prostate and bladder TUR with NBI.	Ž.Kardelis, urologist P.Baum, urologist (The North Estonia Medical Centre, Estonia)	Conference hall, room 113 MTC building
14:15-15:00	Focal therapy: LDR, HDR. Prostate Cryotherapy. Indications, performance technique, presentation of clinical cases. (Demonstration of performance technique at 08:00 – 11:00, operational room, block V)	Dr. A.Vėželis, urologist Dr. E.Janulionis, radiotherapist	Conference hall, room 113 MTC building
15:00-15:45	The role of medical physicists in focal brachytherapy	K. Akelaitis, medical physicist	Conference hall, room 113 MTC building
15:45-16:30	Surgical treatment of localized prostate cancer. Open surgeries, laparoscopic, robotic hand.	Dr. M.Kinčius, urologist	Conference hall, room 113 MTC building
Satellite event for nurses			
10:35-11:20	Work-related stress management in nursing.	Dr. G.Bulotienė, psychiatrist	6 th floor hall Central building
11:20-12:00	Studies for nurses: Assisting in the operational room and preparation for prostate biopsy.	A.Pociūnienė, general practice nurse A. Arutjunjan, operational nurse, (The North Estonia Medical Centre, Estonia) J. Klinskaitė, general practice nurse	6 th floor hall Central building (6 th floor operating room)
12:00-12:45	Studies for nurses: MDT information in the EHR system. Practical demonstration.	I.Točkar, general practice nurse	6 th floor hall Central building
Satellite event for medical doctors			
09:15-12:15	Video stream from operating room: laparoscopic radical prostatectomy with nerve fiber preservation using special NBI lighting. Application of DEX in laparoscopic operations (robotic hand).	P.Bosas, urologist P.Baum, urologist (The North Estonia Medical Centre, Estonia) A.Matulevičius, urologist	Conference hall, room 113 MTC building (6 th floor operating room)

3rd day - Diagnosis and treatment of oligometastatic and metastatic prostate cancer, 15th May 2019

Time	Topic	Speakers	Venue
08:00-08:45	Prediction of primary resistance to treatment with abiraterone: what is known?	Prof. F.Jankevičius, urologist	Conference hall, room 113 MTC building
08:45-09:00	Radical prostatectomy. Clinical case report	A.Matulevičius, urologist	Conference hall, room 113 MTC building
09:00-09:45	Diagnostics of locally advanced and oligometastatic PCa.	A.Patašius, urologist	Conference hall, room 113 MTC building
09:15-12:30	Video stream: laparoscopic radical prostatectomy with nerve fiber detection with NBI and lymph node removal. Robotic hand (DEX). Video stream from the operating room	P.Bosas, urologist P.Baum, urologist (The North Estonia Medical Centre, Estonia) A.Patašius, urologist	Conference hall, room 113 MTC building (6 th floor operating room)
09:45-10:30	Diagnosis and treatment of advanced prostate cancer.	A.Bakavičius, urologist	Conference hall, room 113 MTC building)
10:30-11:15	Radium-223 therapy. Indications, case discussions.	A.Vidrinkaitė, radiotherapist	Conference hall, room 113 MTC building
11:15-11:55	The role of immunotherapy in the treatment of prostate cancer.	Dr. V.Urbonas, medical oncologist	Conference hall, room 113 MTC building
11:55-12:10	Intermission		
12:10-12:30	Video stream: laparoscopic radical prostatectomy with nerve fiber detection with NBI and lymph node removal. Robotic hand (DEX). Presentation of clinical case.	P.Bosas, urologist P.Baum, urologist (The North Estonia Medical Centre, Estonia) A.Patašius, urologist	Conference hall, room 113 MTC building
12:30-14:15	MDT discussion. IDT. Presentation and discussion of clinical cases.	Prof. F. Jankevičius, urologist Dr. A. Želvys, urologist Dr. J.Ušinskienė, radiologist Dr. V.Urbonas, medical oncologist K.Slidevska, radiotherapist D.Dasevičius, pathologist Ž.Kardelis, urologist A.Vidrinkaitė, radiotherapist Dr B. Brasiūnienė, chemotherapist A.Bakavičius, urologist Dr. M.Trakymas, radiologist A.Patašius, urologist Dr. M. Kinčius, urologist	Conference hall, room 113 MTC building
14:15-15:00	Overview of NCI research infrastructure and achievements.	Prof. S.Jarmalaitė, Deputy Director for Research and Development of NCI, acting Director	Conference hall, room 113 MTC building
Satellite event for nurses			
09:00-12:00	Peculiarities of assistance in laparoscopic surgeries in oncurology. Lecture and practical demonstration.	A.Arutjunjan, operational nurse(The North Estonia Medical Centre, Estonia)	6 th floor hall (6 th floor operating room) Central building
12:15-12:40	Studies for nurses: Information for the patient before the surgery.	A.Matulevičius, urologist	6 th floor hall Central building
12:40-13:10	Studies for nurses: Preparing the patient for surgery (taking MMH, feeding). Lecture	G. Andreikaitė, urologist	6 th floor hall Central building
13:10-13:40	Principles of nursing after urological operations	V. Kažeminkaitienė, administrative head nurse	6 th floor hall Central building
13:40-14:10	Lecture: principles of oncurological patients care at NCI	A.Pociūnienė, general practice nurse	6 th floor hall Central building
14:10-14:40	Information for the patient before giving Abiraterone acetate and other biological substances	A.Toliušytė, general practice nurse	6 th floor hall Central building
Satellite event for medical doctors			
09:15- 12:15	Video stream: laparoscopic radical prostatectomy with nerve fiber detection with NBI and lymph node removal. Robotic hand (DEX). Presentation of clinical case.	P.Bosas, urologist P.Baum, urologist (The North Estonia Medical Centre, Estonia) A.Patašius, urologist	Conference hall, room 113 MTC building (6 th floor operating room)

4th day - Diagnosis and treatment of oligometastatic and metastatic prostate cancer, 16th May 2019

Time	Topic	Speakers	Venue
08:00-08:30	CRPC: the biology and biomarkers. Practical demonstration of genomic technologies.	Dr. R.Sabalaiuskaitė, researcher	MTC building hall
08:30-08:45	Postoperative urinary incontinence: indications for surgical treatment. Diagnosis, selection of ligaments and sphincter. Presentation of clinical cases.	A.Patašius, urologist	Conference hall, room 113 MTC building
08:45-09:30	Genetic tests for early detection of prostate cancer. Liquid biopsy: Lecture	Prof. S.Jarmalaitė, medical biologist	Conference hall, room 113 MTC building
09:30-10:30	Non-invasive test for prostate cancer detection.	Prof. J.A.Schalken, Research director Urology, Radboud University Medical Centre (The Netherlands)	Conference hall, room 113 MTC building
10:30-11:30	Prostate cancer radiological diagnostics opportunities at NCI for diagnosis of oligometastatic and metastatic prostate cancer.	Dr. J.Ušinskienė, radiologist	Conference hall, room 113 MTC building
11:30-11:45	Intermission		
11:45-13:00	Multidisciplinary MDT in clinical genomics. MDT discussion.	Prof. S.Jarmalaitė, medical biologist Prof. J.A.Schalken, Research director Urology, Radboud University Medical Centre (The Netherlands) Prof. M.Jievaltas, urologist Dr. A.Čekauskas, urologist Dr. V.Urbonas, medical oncologist Dr. J. Ušinskienė, radiologist I.Naruševičiūtė, radiologist A.Cicėnienė, chemotherapist Dr. A.Burneckis, radiotherapist D.Dasevičius, pathologist A.Patašius, urologist Dr. M.Trakymas, radiologist	Conference hall, room 113 MTC building
13:00-13:30	Treatment of post-radiation relapses: brachytherapy.	Dr. E.Janulionis, radiotherapist	Conference hall, room 113 MTC building
13:30-14:15	Urinary incontinence treatment after radical prostatectomy.	F.Buemi, general manager of Dipromed (Italy)	Conference hall, room 113 MTC building
14:15-15:00	Assessment of response to treatment and progression in CRPC.	M.Stašys, medical physicist	Conference hall, room 113 MTC building
15:00-15:45	Psychological experiences of patients after oncurological operations.	G.Klimavičiūtė, psychologist	Conference hall, room 113 MTC building
15:45-16:30	Closing remarks. Certificates.		Conference hall, room 113 MTC building
Satellite event for medical doctors			
09:00-12:00	Postoperative urinary incontinence: indications for surgical treatment. Diagnosis, selection of ligaments and sphincter. Presentation of clinical cases and demonstration from the operating room.	F. Buemi, general manager of Dipromed (Italy) D.Šlaitas, urologist A.Patašius, urologist Dr. A.Vėželis, urologist	Conference hall, room 113 MTC building (6 th floor operating room)

Deputy Director for Research and Development of NCI, acting Director

Prof. S.Jarmalaitė

Head of Oncourology Department

A.Ulys

Secretaries

A.Patašius
A.Matulevičius

Coordinator

A. Gražytė
